Survey on AI Education Deadline Extended to Sept. 6

ICSEC is conducting a survey to understand the current state of AI and computer science education across APEC economies, covering areas such as access, AI use in schools, teacher readiness, and implementation challenges.

Dr. Soohwan Kim is leading the analysis, and the findings will contribute to discussions at APCSE 2026 in Seoul this October.

The deadline has been extended to September 6. **If you have not responded yet, we would greatly appreciate your participation!**

Survey: <https://forms.gle/1P7Gp3tSU9aVz1i96>

New deadline: Sunday, September 6, 2026 23:59 (JST/KST)

ICSEC Chair Yuta Tonegawa Visits India

In August, ICSEC Chair Yuta Tonegawa visited India to join the AVPN Conference in New Delhi and visit Asha in Chennai.

Speaking at the AVPN Conference in Delhi

Yuta joined the panel “Scaling Skills for Asia’s Evolving Labour Market,” discussing how AI is changing the skills people need and why AI literacy should be a fundamental competency for all students.

Visiting Asha in Chennai

Yuta also visited Asha and met students learning coding, AI, and physical computing. Despite infrastructure challenges, the students demonstrated impressive projects and presentations.

ICSEC Has a New Look!

You may have noticed something different — ICSEC has a new look!

Our updated logo reflects our growing international community and our commitment to computer science education for all.
